Driscoll, Sparks avenue, his father being President of the Citizens' Trust Company.

### HAPPY CHILDREN.

Large numbers of boys and girls of St. Charles parish were made extremely happy last Sunday, the time appointed for them to receive their first holy communion. Rev. Father Raffo celebrated the mass at 8 o'clock, during which a special musical programme was rendered, and the scene as the little ones approached the altar was beautifully impressive. In the afternoon Bishop O'Donoghue made his visitation and administered the sacrament of confirmation.

Liquor men, he and Percy Haly persistently keeping the prohibition hypocrisy in the limelight. Now here is the problem for Democratic leaders to study. Will not the men who were beguiled into voting for Beckham then seek reparation now? We have already called attention to the fact that thousands of men of Irish blood have consistently voted with the Democratic party, and can that party afford to openly insult them by soliciting support for Beckham, who voted "no" when a resolution of sympathy for Ireland was introduced in the Senate recently. Now is the time to withdraw Beckham, as his nomination would mean disaster.

Did you read near Mayor Smith's long and fearful explanation as to why he believes that the Kentucky Tax Association did Louisville an injustice when it published the statement that Louisville was the most heavily taxed city of its size in the United States. Smith's explanation didn't convince many when they looked at their tax bills, as our local tax rate of \$1.98 for city purposes is twelve cents higher than any rate in the history of Louisville. And Smith's platform on which he was elected called for "economy and lower taxes." Poor old Smith and the Herald had the gall to say he had the best of the argument with the Tax Association. If Smith did, then so did Jess Willard have the best of Jack Dempsey. In the past few weeks the public was waiting anxiously for the near Mayor to issue a terrible denunciation on gambling after the expose in the Capt. Bennett and Capt. Stucker cases. But nothing doing. We only heard from him on the awful and terrible crime of throwing waste paper and peanut shells on the sidewalk, and he intimated that if it wasn't stopped the bold perpetrators would be shot at sunrise. It's smooth sailing for gamblers but tough sledding for those who drop chewing gum wrappers on the sidewalk. Better watch his Keystone police—they have not abstained from their old "sleazy" days of throwing banana skins on the sidewalks.

Another harvest week for the crooks in our midst without a single arrest or even clue by the Keystoneers. In one residence the burglars got away with a great big grandfather clock that you see in hallways. And in carrying away his booty one of the burglars passed a Keystone policeman who inquired of the crook as to whether the clock was going. The burglar smirked a little and said: "New, it's gone." An evidence that the burglars here have adopted system and efficiency in their methods is shown by the robbery of the Quaker Maid groceries. They are robbing these in numerous order. No. 1 tonight. No. 2 tomorrow night, and so on. Maybe the efficiency experts will open up a burglars' grocery store with the loot they are obtaining and bargain sales announced in the danger of their being disturbed by our sleuths.

The daily press told us Monday of how the fire department had performed heroic work in rescuing a family from a burning building, but did not give us a story of the feature which pleased the spectators most. One of our "hick" firemen was straddling a big hose, holding the nozzle with both hands and crying for "water, water" at every breath. The engine was pumping for dear life and still no water came in answer to his demands. Finally the hose burst near the nozzle and carried the noble fireman away with a rush. The secret came out. O.
